

Safe practices when using gloves on site

You will need to use gloves:

Any time you are completing a manual task
Use your usual work safety gloves.

If you are cleaning any surfaces
Use disposable gloves for this and throw them in the bin when you finish cleaning.

Remember to:

Avoid touching your face while wearing gloves

Remove your gloves and then wash your hands prior to eating, drinking or smoking/vaping

Practice good hand hygiene and good cough and sneeze etiquette while wearing gloves
