

Introducing the Site Safety Card

Along with our refreshed Site Safe brand, we have refreshed our site access cards. We're pleased to introduce the new Site Safety Card.

This Site Safety Card is awarded to people who have successfully completed a Site Safe approved training course that provides site access to construction sites in New Zealand.

The Site Safety Card comes in a range of colours (white, silver and gold to indicate the level of the training), and replaces Site Safe's range of passport and certificate cards.

Both these new cards, and any older-style Site Safe cards (shown at right) with a valid expiry date can be used to gain access to construction worksites in NZ.

Want to know more? Call us on 0800 Site Safe or visit our website, www.sitesafe.org.nz.
